

Message From MD

"The dictionary is the only place that success comes before work. "WORK" is the key to success, and hard work can help you accomplish anything."

Joffiry Bin Rifin

# Safety Month

## **Safety Stand Down**

Stand Down may not be as formal as other safety briefings. It was held in our own conference room and was assist by two persons from SMR. We were asked to tell a story of incidents happen then being thought in how to handle situation and ideas in how to avoid risky situation happen to us.it was pretty interesting listening to different kinds of situation and there were many reasons we can do to avoid it and safe our own and other peoples life.

## **Best Pakat** of the Month!

During alongside at Lantana base. I saw marine crew sitting near the mooring rope at the time the vessel not finish alongside the cause is strong current. I told him to get out from the rope because the mooring line is in tension. It is very dangerous for him if some line is broken and strike against him. He agreed and walked away. Done. Rommel Santos - AB

Safety Comes First! Always Remember That!

### **Fire Emergency Awareness**

(23/4/2013) An awareness covering the response of employees to an emergency at the workplace. The occupants will learn how to react safely in an emergency situation. The half hour briefing took place in our very own building, prepared by the HSE team (Stanley Ling) and his two helpers (Sufia & Shahiela). We were taught in how to handlefire extinguisher if there was any fire do happen at our workplace. We were also given a chance to put down a small fire using the fire extinguisher. It was a very good experience to be involved in especially for the all the new trainees

**KPI**19/4/2013 – It was held in our very own conference room. It was a review of Plan made by SMR. It main goal is to set a target and to achieve it.

Congratulations to LANTANA for achieving some of the goals. Although the achievement was not as expected but still the result was satisfied.

Fire Extinguishers-Society's Silent Heroes

extinguishers provide for us, it is surprising that we don't appreciate them more. In fact, the only time we think about them is when we need them in an emergency. The only time we hear about them is when they are unavailable, or when they are unable to do their job -Copyright-

## Fire Extinguisher

Just how important to society are fire extinguishers? It turns out VERY IMPORTANT! Often ignored, even by the fire community, these overlooked life safety devices play a vital role in keeping us safe.
